

Website is BELOW this Text/Comment Section

Decided to Use 1 Page Only so Sections Are Mainly Just Color Coded to Differentiate.

Might Change About Us & Services Sections' Design so the Image is Above the Text to Make it More Mobile User Friendly.

Will Make Navigation Bar Scroll Alongside/Stick to Top of Screen.

Maybe Add Some BG Decor to Make it Less Bland/Abrupt, Maybe Stick With the Rainbow+B&W Theme?

Services

Hair Face Nails

Hair Coloring
